-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 30-35, 37-39, 40-47, 49-52, 54, and 57-63 are rejected under 35 U.S.C. 102(b) as being anticipated by Hanke EP 1066825.

As to claims 30-33, 37-39, 40, 42-47, 49, 51-52, 54, 57, 58, and 60-63, Hanke discloses an anti-microbial body product such as a disposable absorbent article (Abstract paragraph 0025) having chemically or physically attached metallic silver attached to a surface of a matrix (paragraph 0023). The matrix comprises synthetic fibers from the claimed group of fibers (paragraph 0018).

The silver nanoparticles have a particle size of about 5 nm (paragraph 0023). Hanke teaches a silver-containing liquid organic matrix used to coat the part of the body care product to impregnate the material (paragraph 0023). Hanke discloses the topsheet, core or backsheet is impregnated (paragraph 0025).

As to claims 34, 35, and 55, Hanke teaches the silver is applied at 1% -5% (paragraph 0039, 0046, 0052)

As to claims 41 and 59, Hanke discloses pulp and a superabsorbent in the article (paragraph 0029).

Art Unit: 3761

As to claim 50, Hanke discloses vacuum evaporation (paragraph 0023).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 36, 48, and 56 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hanke EP 1066825. Hanke discloses the claimed invention except Hanke does not specifically disclose the antimicrobial is detectable for not more than 24 hours.

However, Hanke disclose the silver nanoparticles in an amount on the surface to be effective but without causing user skin irritation, specifically in instances where the absorbent is in contact with the skin for a long period of time (paragraph 0027). Hanke does not disclose a specific time period, however, the general condition of the antimicrobial being effective for a long period of time is taught in Hanke, and where the general conditions of a claim are disclosed in the prior art, it is not inventive to discover the optimum or workable ranges by routine experimentation, In re Aller et al. 105 USPQ 233.
